

Tuition Support for Graduate Research Assistantships (GRA)

College of Agriculture and K-State Research & Extension

Policy

When Graduate Research Assistants are included in projects which are externally sponsored, costs will include tuition for the GRA. Full tuition support as prescribed by the student's degree program and current tuition rates should be used when budgeting. If a partial assistantship is being offered to the student, a corresponding reduction should be made to the tuition, for example one-half of an assistantship would require 50% tuition. This policy does not apply to single or multi-year proposals with total direct costs up to and including \$50,000.

Revised July 2018

Date 7/30/2018
Dr. J. Ernest Minton
Interim Dean of College of Agriculture and
Interim Director of K-State Research and
Extension
