

# Livestock

**Contact:** Taylor Belle Matheny, tmatheny@ksu.edu

**Location:** Remote/Virtual

**Contest Date:** Tuesday, May 4th, 8 a.m.-12 p.m.

## General Information

The 2021 Livestock CDE will be hosted virtually. Contestants should plan for 6-8 classes covering all four species and the possibility of one keep/cull class with performance information. The contest could change and may not be able to cover all four species due to quality and availability of video footage.

The contest will omit oral reasons for this year and contestants will have 2-4 sets of questions, each set containing 10 questions, to answer.

More information about the class types will be available at a later date.

Four animals will be used in each class and they will be ranked in order of their excellence.

If applicable, expected progeny differences and/or actual performance information may be made available on breeding classes.

\*No cell phones or electronic devices will be allowed during the contest other than the contestants laptop they are using.

Due to the current pandemic, the contest remains fluid and may change at any time.

**FOUR CONTESTANTS WILL BE ALLOWED TO PARTICIPATE, ONLY THE HIGHEST THREE SCORES WILL COUNT.**
